

Wireshark – Order Packets by Time

Time	
22	-0.000232
1	0.000000
10	0.000230
4	0.000550
18	0.000786
3	0.001008
2	0.001224

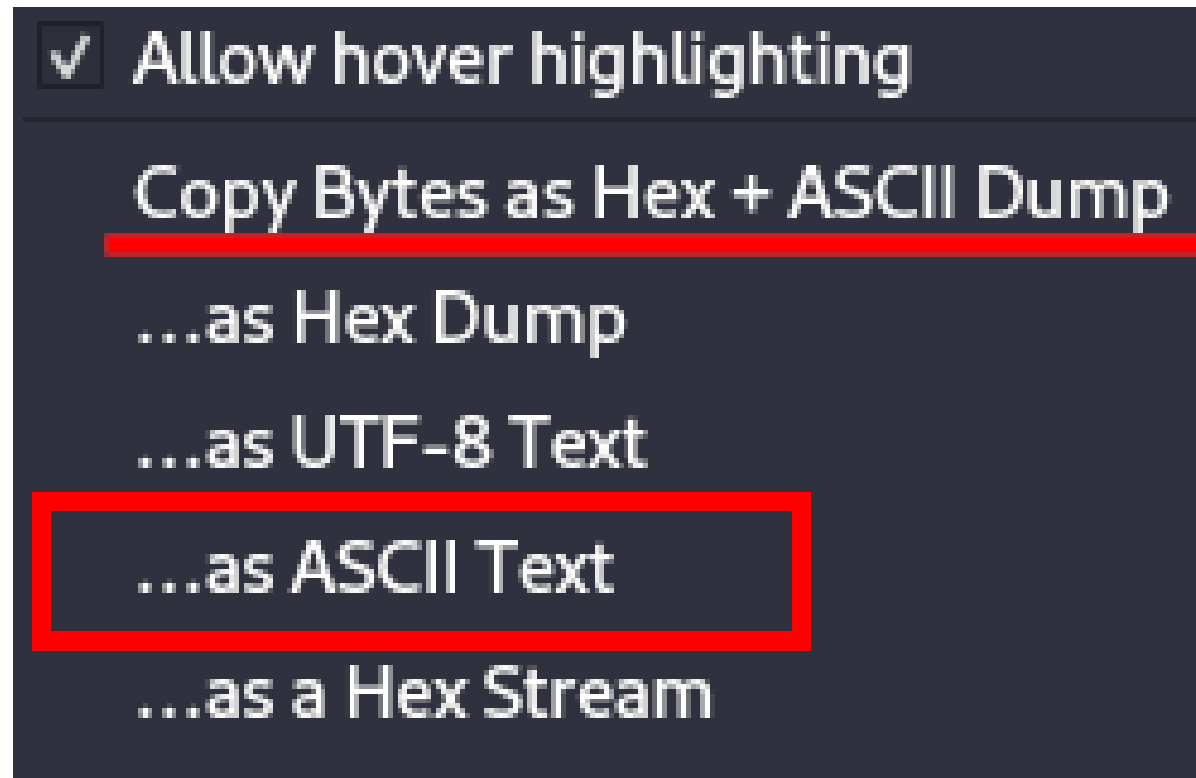

In this challenge, we see a series of packets if we arrange the packets by Time order

Wireshark – Order Packets by Time

We can take the hex-content of these packets and see that it looks like a base64-encoded string

Wireshark – Order Packets by Time

We can copy the contents of the packets as an ASCII string to extract its contents
